Sub:- Shirva Nadibettu Dam - Construction of a Bridge over this Dam - Prayed for -

Sir,

We have the honour to submit herewith the following few facts for your kind consideration and favourable action.

We are given to understand that the Irrigation Department has taken up the construction of a dam at Nadibettu in Shirva village. A detailed survey of the scheme is now being done. At present there are roads on the either sides of the proposed dam and the District Board, asthoritieshave taken taken up the repairs work of these roads with the idea of converting it into a pucca road connecting Hiriadka. Further this place is in the centre of South Kanara District and a road through this place connecting the important places such as, Coondapur, Hiriadka Shirva, Kinnigoly and Mangalore will be an excellent one. The Central Highways had the idea of such a road, running through the above five towns.

Therefore, Sir, it is our request that a bridge on this dam, which make the road a continuous one, running from Coondapur to Mangalore, is quite essential and the construction of the same may be commenced at an early date.

We have the honour to remain,
Sir,
Yours faithfully,

Shirva, S.K.

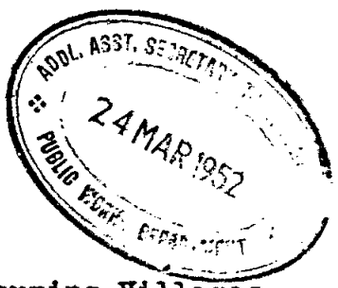
Madras.



Sir,

The Humble representation from
The people of Shirva & the Neighbouring Villages.

Sub: Shirva Village - Dam for the Shirva, River request to have a regulated dam and a bridge over the same at Shirva Nadibettu.

We have been agitating for a dam for he Shirva river at Nadibettu and also, the regular bridge over the dam for the proposed road. We have been trying for a road from Shirva (which is on the Katapadi Belman road) to Hiriyadka, via Belle, Kudi. This road is a part of the post war scheme road from Mangalore Bajape - Shirva - Hiriyadka - Puttige - Someswara. (ghats). This scheme was approved by the Government; and much work was done.

Now, we understand that the Department has approved the scheme, and had sanctioned the construction of the dam, and had dropped the idea of the bridge Cum Dam, i,e the dam may be made useful for vehicular Traffic.

So, now we request you to include the bridge scheme also, as it will help the direct, and main road connection from Mangalore to Someswara.

We beg to remain,

7-APR-1952 PUBLIC WORKS DEPT. MADRAS

Sub: Communications - Bridges - South Kanara District
Sirva Nadibettu dam - construction of a
bridge - regarding

Ref: 1. Govt. Endt.No.1971-A/51-1 dated 1-5-51.
2. Govt. Memo No.1971-A/51-2 dated 5-10-51
3. -do- 1971-A/51-3 dated 25-2-52.

The work of constructing a dam across Shirva Hole at the site marked 'X' in the sketch enclosed is reported to be under investigation by the Irrigation department. The villagers of Shirva etc., have stated that at present there are roads on either side of the proposed dam and the District Board has taken up the repair works on these roads. They have therefore, requested that a road bridge may also be constructed at the site 'X' together with the dam to enable free flow of traffic from Shirva to Heriadea.

The road in question is shown as AXBCX1 DE in the sketch. Portions BC and DE form part of existing roads. The portion X1 D was already sanctioned for execution under grants-in-aid scheme of Post War Road Development. The work of forming roads from A to B and C to X1 together with the construction of a bridge at site 'X' falls outside the scope of post war Plan. The President District Board who was consulted in the matter has stated that the work may be taken up under grants in aid scheme of Post War Road Development., on account of the heavy deficit in Budget Estimate of the District Board for 1951-52. I have addressed the Chief Engineer, Irrigation to offer his remarks regarding the proposal of constructing a combined dam and road bridge. On receipt, I shall send my further report in the matter.

Sir,

SUB- Shirva Village - Construction of a dam on the Shirva River at a place known as Shirva-Nadibettu - Request for a regulated dam fit for vihicular Traffic -

--- ** ---

We have agitating for a regulated dam on the Shirva river at a place known as Nadibettu with a regular bridge over this which will enable the construction of a continuous road fro Shirva to Hiriadka via Belle and Kudi.

The above mentioned road is a portion of the road running from Mangalore- Bajpe-Shirva-Hiriadka-Puttige to Someshwar(Thate) which has been approved by the Postwar Reconstruction Scheme. The Same has been approved by the Government.

Now we understand that the department has sanctioned the construction of this proposed dam but has dropped the idea of constructing a bridge over this. The importance of the road cannot be underestimated when the usefulness of it for the people of the surrounding villages is considered. This will be the only road which will connect Shirva with Hiriadka passing through many villages.

Therefore, we request that the dam may be constructed in such a way that it will not only supply water for irrigation but also be fit for vihicular traffic and facilitate the construction of a main road from Mangalore to Someshwar.

The correspondence in this regard may be addressed to Sri. K.Muddu Shetty, Shirva, S.K.

We beg to remain,
Sir,

Yours faithfully,

From Sri	To
A.R. Venkatachari, B.E., M.I.E. (Ind), M.Am.Soc.C.E., I.S.E., Special Chief Engineer, P.W.D., Chepauk, Madras-5.	The Chief Engineer, Highways, Chepauk, Madras.

Letter No.1764/54 B-1 dated 27-3-54.

Sir,

Sub:-South Kanara District - Udipi Taluk - Shivanadibettu dam - Construction of a bridge over this dam.

Plans Ref:-Govt. P.W.D. Endt. No.1971 A/51-1 dated 1-5-1951.

In continuation of my letter No. 2520/51 B-15 dated 23-1-54 I forward herewith plans and estimate amounting to Rs. 2,46,750/- for works or Rs. 3,21,700/- including direct and indirect charges in respect of the above work.

2. The necessity for the work and the details proposed are explained in detail in the report to accompany the estimate.

3. So far as this department is concerned the irrigation needs are best served by the construction of a vented dam above across the river. But in the interest of village communication a road bridge is also proposed in combination with the dam. Hence I consider that the extra expenditure towards the cost of the comb dam and bridge may be borne by the Highways Department. The cos of the vented dam alone without bridge is Rs. 1,39,000/- for wor while the cost of combined bridge and dam is Rs. 2,46,750/- for The extra cost involved in putting up the road bridge is Rs.1,0

4. In so far as the design of foundations for the work isco I have called upon the Superintending Engineer, to submit soil subsoil particulars obtained by probing for verifying the adeq of foundations provided. They are awaited. I shall few forwa the same to you on receipt from the Superintending Engineer f fication.

5. The Collector of South Kanara has been addressed by the Superintending Engineer, Coimbatore Circle to offer his finan and administrative aspects of the scheme and it is awaited.

6. I request you to examine the proposals with reference to requirements and standards of your department and send me your remarks on the scheme as also your willingness to contribute towards the cost of construction.

A.R. Venkatachari,

for Special Chief Engineer, P.W.
